

beag® flameCut

PA66 inherently flame-retardant
Flame-retardant (FR)

Hook & Loop fastener (source: Kuny)

Hook & Loop
fastener

Kuny Hakofix® FR Flame Retardant hook and loop fasteners are tried and tested for quick adjustment and fastening of body armor (bulletproof vests) for the army, police, and fighter pilots. The fasteners have an easily adjustable system with high adhesive force. Among other things, they serve as quick-fastening systems for firefighting equipment.

-**No release of toxic burning gases** (indoors, aircraft)

-Can be dyed according to specifications with integrable IR spectrum and printed with Camouflage

-Meets the requirements of DIN 3415 and Oeko-Tex Standard 100

-Protective clothing against heat and flames in accordance with ISO 11612:2015

-Limited flame spread in accordance with DIN EN ISO 15025: 2016-12, Method B

Material:

100% **PA66 FR flame-retardant**
